**Subject:** Portland Harbor - Draft Action Items List from August 13 Call Regarding Revised FS

Kristine,

Here is the LWG's draft action items list from yesterday's call regarding the revised FS.

### Action Items

- EPA to provide updated maps for Section 3.6, which will happen sometime after Section 4 is issued. (EPA indicated Figure 3.3-27a-f maps were correct.)
- EPA to verify the area of the site, and if areas/volumes summarized in Section 3.6 and 3.7 include areas downstream of RM 1.9.
- EPA to verify volumes and areas presented in Section 3.6 and 3.7 text and tables, including riverbank volumes.
- LWG to provide preliminary list of quantities inconsistencies identified in Section 3 so far.
- EPA to provide cost appendix which provides additional information regarding how volumes and costs were developed, including riverbank areas and volumes and assumptions for riverbank geometries. Expected out with Section 4.
- LWG to check EPA explained derivation of the TPAH PRG of 970 ppb shown on Figure 3.3-02 came from and get back to EPA.
- EPA to look into disposal sites and verify if Roosevelt Landfill in Washington State should be the representative option for the FS.
- EPA to verify which sheer stress (2-year average or maximum) should be used for the technology scoring matrix.

Please confirm that the LWG's list is consistent with EPA's list.

Let us know if you have any questions.

Thank you,
